Introduction to Green-4-Future Project

Green-4-Future is an innovative project that addresses the need to align economic goals with environmental and climate objectives stated in the **European Green Deal**.

The project aims to revise “green” the EU Framework for Entrepreneurial Competences developed by the Joint Research Centre (JRC) of the European Commission and turn it into a **model Green Entrepreneurship Framework**. Also, the project will provide those in Academia, Business Development Organisations, Entrepreneurship, Policy Making, with a wide range of educational resources to support their endeavours in the sustainable Green Economy of the future.

Main Project outputs

IO1 – Green EntreComp Framework

IO2 - Business Modelling for Circular Economy Businesses

IO3 - In-service Training for VET Tutors

IO4 - Green-4-Future MOOC

Members of the Consortium

- University Paderborn (**UPB**), Germany
- Centre for Advancement of Research and Development in Educational Technology Ltd (**CARDET**), Cyprus
- Callidus ustanova za obrazovanje odraslih (**CALLIDUS**), Croatia
- Berufsförderungsinstitut Burgenland (**BFWB**), Austria
- Spectrum Research Centre CLG (**SPECTRUM**), Ireland
- Universitatea din Pitesti (**UPIT**), Romania
- University of Peloponnese, (**UoP**), Greece
- Burgaski Svoboden Universitet - Burgas Free University (**BFU**), Bulgaria
- Instituto De Soldadura E Qualidade (**ISQ**), Portugal

The Kick-Off meeting

Our very first meeting was held from 1st to 3rd of December 2020. Due to the situation with the pandemic of COVID 19, the Kick-Off meeting was held online. The meeting has been hosted by **UNIVERSITY PADERBORN**, German partner in the project and on the first day, it started with welcoming and presentation of partners and their organizations, the **introduction of the projects' Rationale, Intellectual Outputs, Website, and roles of the Partners** and with the insight into the first Output – **GreenEntreComp Framework**. On the second day, project partners presented an insight into three remaining Intellectual Outputs - **Business Modelling for Circular Economy, In-service Training for VET Tutors** and **Green-4-Future MOOC**. The day ended with presentation of the projects' administrative and financial information. Our Kick-Off meeting ended on the third day with the presentation of the system of the **Project Evaluation, Dissemination and Exploitation** and was wrapped up with the discussion about the current status of the first Intellectual Output tasks ahead.

Current state of the IO1 – Green EntreComp Framework

By the time of publishing this newsletter, the work on the first Intellectual Output was already near completion. Final feedbacks on all produced documents have been provided by all partners and completed **Green EntreComp** document is expected to be finalised in the next few weeks.

Next steps

Our **second project meeting** is scheduled for **15th of July in Austria**, but due to the pandemic situation, it will be held online. On that meeting our future activities will be discussed: the **translation** of the final version of the **Green EntreComp Framework** into all partner languages, the **development of Business Modelling for Circular Economy** and **In-service Training for VET Tutors**.
