

Green-4-Future Project Nears Completion: Final Submission Deadline Set for October 30, 2023

Posted on [September 29, 2023](#) by [admin](#)

The Green-4-Future project is excited to announce that the project's journey is entering its final phase. Over the course of this project, we have worked tirelessly to promote green entrepreneurship, sustainability, and circular economy practices across multiple disciplines and sectors.

As we approach the project's culmination, we would like to extend our gratitude to our dedicated partners from various countries who have collaborated with us on this transformative endeavor. Together, we have explored innovative ways to integrate sustainability into entrepreneurship education, developed valuable resources, and engaged with stakeholders and policymakers to advocate for sustainable practices.

While we are eager to see the project's impact continue to grow, we must also prepare for the project's closure. To ensure the seamless conclusion of the Green-4-Future project, all project-related materials and documentation must be submitted to the National Agency by October 30, 2023.

This final step represents both an end and a new beginning. While our direct collaboration within this project will conclude, we are optimistic that the knowledge, resources, and networks established during this journey will continue to drive positive change in entrepreneurship and sustainability.

We express our sincere appreciation to all those who have been part of this remarkable project. Together, we have laid the groundwork for a greener, more sustainable future. And in the meantime, we will discuss our results with students from different areas.

ABOUT GREEN-4-FUTURE

The Green-4-Future project is a collaborative initiative focused on integrating green entrepreneurship, sustainability, and circular economy principles into education and business practices. It brings together partners from multiple countries to develop innovative resources and advocate for a more sustainable entrepreneurial landscape.
