

Green-4-Future Partners Convene in Zagreb for Project Meeting

Posted on [October 30, 2022](#) by [admin](#)

Zagreb, Croatia

The Green-4-Future project marked a significant milestone with a productive partner meeting held in Zagreb, Croatia, from October 26th to 27th, 2022. The event was graciously hosted by our Croatian partner, Callidus.

Engaging Discussions and Project Progress

The meeting kicked off with partners coming together to present and deliberate on the current status of the Green-4-Future project. Topics of discussion spanned across various facets of the project, including an overview of the learning outputs and the project website. Partners also delved into the current project status within their respective organizations.

Completion of IO1 – GreenEntreComp Framework

One notable highlight was the completion of IO1 – GreenEntreComp Framework, a foundational element of the Green-4-Future project. This framework sets the stage for promoting sustainable entrepreneurship by equipping individuals and organizations with the necessary knowledge and tools to navigate the green business landscape effectively.

A Focus on IO2 and IO3

With IO1 successfully achieved, partners shifted their focus to IO2 – Business Modelling for Circular Economy Businesses and IO3 – In-service. These crucial components will further enrich the Green-4-Future project, contributing to its mission of cultivating sustainability in entrepreneurship.

A Shared Vision for a Greener Future

The Zagreb meeting underscored the dedication and collaborative spirit of all Green-4-Future partners. It reaffirmed the commitment to building a greener future through education, innovation, and sustainable business practices.

About Green-4-Future

The Green-4-Future project unites partners from diverse countries with the common goal of promoting sustainability in entrepreneurship. Through comprehensive learning outputs, innovative frameworks, and shared expertise, the project aims to empower businesses and individuals to embrace environmentally responsible practices.
