

Working Group Meeting was successful!

Posted on [April 21, 2021](#) by [Jana Stelzer](#)

Concerning IO1, Green 4 Future will review each of the 15 competences of the EntreComp Framework and will redraft the descriptor to a necessary green perspective. The team leaders of UPB, CARDET and UPIT revise three competences, the supporting partners revise only one competence. Afterwards, the three responsible leading organisations have to collate all revision. As the leading organisations for IO1, UPIT, CARDET and UPB have met online for a Meet Up to collect all revisions and results from the respective working groups concerning the descriptors of each competence area. Additionally, we had first discussions regarding the revised Green EntreComp Framework.
